

Building Better Health

The Board of Trustees of the Midwest Operating Engineers Welfare Fund are extremely proud of the Operators' Health Center. Our goal is "Building Better Health" for the members and families of Local 150. Our partnership with Premise Health has allowed us to provide quality and comprehensive healthcare services to eligible active and retired members (including their families and dependents ages two and up) under the Midwest Operating Engineers Welfare Fund. **Free services** include but are not limited to:

- Routine primary care
- Annual, school and sports physicals
- Clinical lab services
- Immunizations and vaccinations
- Allergy management
- Disease/Condition Management
- Women's health services
- Monthly educational programs for 2016 include:

January:	New Year, New You
February:	Heart Health
March:	Colorectal Cancer Awareness
April:	Sun Safety
May:	Women's Health
June:	Men's Health

July:	Sleep
August:	Immunization Awareness
September:	Stroke Awareness
October:	Breast Cancer Awareness
November:	Diabetes
December:	Stress Management

- Specialist referrals, if necessary

If you are a retired member that is not yet Medicare eligible, the services you receive at the Operators' Health Center also **remain FREE**.

If you are a retired member that is Medicare eligible, Medicare **is reimbursing** the Operators' Health Center for services rendered. When you use the Operators' Health Center, you receive top quality care and Medicare pays the bill which makes the program more affordable for everyone!

Visit www.moefunds.com and click on OHC tab for more information, meet the OHC staff, and view additional media and pictures.

The use of the Operators' Health Center is cost effective for all of our active and retired members and their families. This continues to be a top priority for Local 150 as we continue to Build Better Health.
